What is Green Seal?

Green Seal is an independent, non-profit organization that strives to achieve a healthier and cleaner environment by identifying and promoting products and services that cause less toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion. Green Seal evaluates products submitted on a voluntary basis using internationally recognized methods and procedures, state-of-the-art science, and information. Green Seal meets the criteria of ISO 14020 and 14024, the environmental standards for ecolabeling set by the International Organization for Standardization (ISO); the U.S. Environmental Protection Agency's criteria for third-party certifiers of environmentally-preferable products; and the criteria for bona fide ecolabeling bodies of the Global Ecolabeling Network.

Green Seal has developed over 30 stringent standards for products including paints, industrial and institutional cleaners, degreasers, household cleaners, lodging properties, and paper towels and napkins.

Green Seal Programs

Green Seal has two significant programs targeted at government and the lodging industry. These programs have been so successful that some agencies and companies now write Green Seal Certification into their purchasing specs. Green Seal has partnered with the lodging industry since 1995, and has campaigned to inform the nearly 54,000 U.S. hotels and motels about how environmental efforts can improve both the environment and the bottom line.

These programs include:

- Greening Your Government – technical assistance to Federal, State, and local government in their purchasing, operations, and facilities management. Green Seal provides assistance through product evaluations and recommendations, manuals, certification, and special projects.
- Product Standards and Certification – development of environmental standards for leadership products in specific categories and certification of products that meet them
- Product Recommendations – technical reports “Choose Green” reports on products in a variety of categories giving specific brand recommendations for those that meet screening criteria
- Greening the Lodging Industry – long-term project with hotels and motels to green their operations and purchasing, now including certification of specific properties
- Policy – leadership in green procurement policy, international policy for ecolabeling, etc.

Zep GREEN LINK Floor Finish Stripper

- A deep penetrating, low foaming floor finish stripper that works effectively with Zep Green Link Floor Finish as well as conventional finishes.
- VOC free formula that contains no Alkyl phenol ethoxylates (APEs).
- Meets Green Seal's Environmental Standard for Floor-Care products: Finishes and compatible strippers used for industrial and institutional purposes, GS-40.

PROD.# 1913

Zep GREEN LINK Conc. Glass Cleaner

- Removes smudges and fingerprints without any streaks or haze.
- Contains no Alkyl phenol ethoxylates.
- Meets Green Seal's Environmental Standard for General Purpose Cleaners used for Industrial and institutional purposes, GS-37.

PROD.# 1036

Zep GREEN LINK Floor Finish

- Uses a new crosslinking mechanism to achieve a low VOC, zinc free, alkyl phenol ethoxylate free formulation.
- Slip Resistant.
- Each coat dries in 30 minutes.
- Finish can be maintained with a variety of maintenance procedures such as damp mopping, spray buffing, or occasional burnishing depending on traffic and available equipment.
- Meets Green Seal's Environmental Standard for Floor-Care products: Finishes and compatible strippers used for industrial and institutional purposes, GS-40.

PROD.# 1917

Zep GREEN LINK Multi-Clean Green

- A concentrated cleaner and degreaser.
- Can be used with the Zep Dilution System (ZDS) dispensers.
- Will rapidly remove dirt, grease, and grime from a wide variety of surfaces.
- Suitable for use by hand or through steam or pressure-cleaning equipment, automatic floor scrubbers, etc.
- All of Multi-Clean Green's detergents and wetting agents are biodegradable.

PROD.# 1249

Zep GREEN LINK Neutral Floor Cleaner

- A low foam, general purpose cleaner designed for use on most floors including finished floors.
- Excellent for use in automatic scrubbers.
- Rinses easily, leaving a film-free surface.
- Neutral pH will not harm floor finishes.
- VOC free and Alkyl phenol ethoxylate (APE) free.
- Meets Green Seal's Environmental standard for General Purpose Cleaners used for Industrial and institutional purposes, GS-37.

PROD.# 1914

Zep GREEN LINK Verdiza

- A concentrated cleaner and deodorizer.
- May be used to clean glass, floors, bathrooms, and other hard surfaces.
- Leaves cleaned areas smelling fresh and clean (lemongrass fragrance).
- Contains no harsh solvents that may damage paint or cause cracking.
